

## **Cambridge Scholar Award Recipients Multiply in 2009**

Talented students from Reagan/Doral have won awards from University of Cambridge International Examinations (CIE) in recognition of their outstanding results in the June 2009 examination session.

The Brilliance in USA award program commends students who have excelled in their Cambridge IGCSE and / or International AS and A Level examinations. The Cambridge IGCSE is the world's most popular international qualification for 14 to 16 year olds and, together with Cambridge International A and AS Levels, is recognised around the world as proof of academic achievement.

Reagan/Doral is proud to announce that 79 of our students received Cambridge Scholar Awards for gaining high marks across several subjects. Only students earning at least three grades of 'C' and above (the US grade average equivalent of a 'B' or higher) during a single examination period at the AS and / or A level, or three grades of 'B' or above at Cambridge IGCSE, are eligible for this award.

As part of the Cambridge Scholar Award, students will receive a certificate from CIE for presentation during a school-hosted ceremony.

The following students at Reagan/Doral received Cambridge Scholar Awards:

### **International Advanced (A) / Advanced Subsidiary (AS) Level**
