

## Cambridge Outstanding Achiever Awards

**University of Cambridge  
International Examinations (CIE)  
honors students every year  
who have achieved outstanding  
results in their Cambridge  
assessments.**

The Cambridge Outstanding Achiever Awards include the following categories:

### **Top in the World Award**

The most prestigious award, this category recognises students who have achieved the highest mark in the world in an individual Cambridge IGCSE or International A/AS Level subject.

### **Top in USA Award**

Students qualify for this award if they have achieved the highest mark in the USA in an individual Cambridge IGCSE or International A/AS Level subject.

### **Cambridge Scholar Award**

Students qualify for this award by achieving three points in a single examination session. One point is awarded for a Cambridge IGCSE, an International AS Level or A2 (the

second year of study for a Cambridge International A Level which is studied and examined over two years).

Two points are awarded for a Cambridge International A Level which is completed entirely in one year. Students can therefore achieve their three points in several combinations.

#### Cambridge IGCSE:

- Students must achieve a grade B or higher
- Results cannot be carried forward from previous years

#### Cambridge International A/AS Level:

- Students must achieve a grade C or higher
- Results cannot be carried forward from previous years

The winners of  
Cambridge Outstanding  
Achiever Awards  
receive certificates  
from CIE
